AEGIS / WEB & AI SOLUTIONS

Website Pricing & Custom Quotes

A clear, client-friendly guide to website packages, custom builds, and the questions that help us quote the right solution.

OUR APPROACH

Start with the business goal. Define the scope. Recommend one clear solution.

Pricing at a glance

BUSINESS WEBSITE	INTERACTIVE 3D	E-COMMERCE	AI AUTOMATION
$99–$499+ Simple to custom	**$999+** Immersive experiences	**$299–$2,000+** Online stores & transactions	**$699–$4,000+** Leads, follow-ups & bookings

All prices are indicative starting prices in USD. Final quotes depend on scope, complexity, integrations, content readiness, and third-party costs.

01 / Website pricing

Keep the public offer simple. Use these ranges as a starting point, then quote based on the actual requirements.

Business & Portfolio Websites

$99–$499+

For professionals, creators, and small businesses.

• **Starter — $99:** one-page, template-based site; mobile responsive; contact links.

• **Professional — $299:** up to 5 pages; tailored styling; contact form; basic on-page SEO.

• **Premium — $499+:** up to 8–10 pages; stronger visual direction; analytics and lead capture.

Use $99 only for a tightly defined starter scope.

Interactive 3D Websites

$999+

For premium portfolios, brands, and product showcases.

• **3D Portfolio — $999:** defined 3D elements, animations, responsive layout.

• **Immersive — $1,500–$2,500:** custom scenes, scroll interactions, visual storytelling.

• **Advanced — $3,000+:** configurators, complex scenes, custom interactions.

Extensive 3D modeling, assets, and animation may require a separate quote.

E-commerce & Transactional Websites

$299–$2,000+

For stores, subscriptions, and online transactions.

• **Basic — $299–$499:** theme-based store, initial product setup, standard checkout configuration.

• **Growth — $799–$1,200:** custom styling, categories, analytics, shipping/payment setup.

• **Advanced — $2,000+:** custom workflows, subscriptions, memberships, integrations.

Gateway availability and fees depend on the client's country and provider.

AI Websites & Business Automation

$699–$4,000+

For lead capture, qualification, follow-up, and booking.

• **AI Lead Starter — $699:** landing page, lead capture, basic CRM and one simple workflow.

• **AI Growth — $1,499:** funnel, AI chat qualification, booking, reminders, CRM pipeline.

• **Advanced — $2,500–$4,000+:** custom agent, multiple workflows, integrations, reporting.

AI usage, phone, SMS, CRM, and third-party subscriptions should be separately scoped.

Optional ongoing support

Service	Suggested monthly range	Typical scope
Website care	$29–$79	Updates, backups where applicable, basic support.
E-commerce support	$99–$299	Store maintenance and agreed support hours.
AI monitoring & optimization	$149–$799+	Workflow monitoring, fixes, optimization; usage may be extra.

Pricing rules: State page/product/workflow limits, revision rounds, delivery milestones, support period, and exclusions in writing. Hosting, domain, premium themes, licenses, payment processing, AI usage, SMS/voice, and other third-party fees are excluded unless explicitly included.

02 / Custom quotation questions

Use the short intake first. Ask follow-up questions only when they matter to the requested project.

A. First-contact questions

1. What do you need?

Business/portfolio website, 3D experience, e-commerce, AI automation, or not sure yet.

2. Tell us about your business.

Business name, industry, current website or social profile, and target audience.

3. What is the main outcome you want?

Professional online presence, online sales, more qualified leads, automated appointments, or less manual work.

4. What must the solution do?

Contact forms, payment, product catalogue, booking, AI chat/voice, follow-ups, CRM, 3D elements, or integrations.

5. What budget range have you allocated?

Under $300; $300–$500; $500–$1,500; $1,500–$3,000; $3,000+; or need guidance.

6. When do you need it?

As soon as possible, 2–4 weeks, 1–3 months, or flexible.

7. Do you already have a website or system?

New build, redesign, or automation added to an existing platform.

8. Anything else we should know?

Reference websites, must-have features, content availability, constraints, or additional context.

B. Follow-up questions by project type

Project	Ask these next
Business website	How many pages? Who provides copy and images? Any reference sites? Do you need multilingual content, forms, analytics, or ongoing updates?
3D website	Do you have 3D models/assets? Which scenes or interactions are essential? Which devices must be supported? Is speed/performance a priority?
E-commerce	How many products/SKUs? Which countries will you sell in? Which payment gateway? Shipping, taxes, inventory, subscriptions, refunds, or accounting integrations?
AI automation	Where do leads arrive from? What should the agent answer or qualify? Which CRM/calendar is used? What triggers a human handoff? Expected lead volume? Email, SMS, chat, or voice?
Existing website	What isn't working? Which platform is it built on? Can you provide access to the site and analytics? What must remain unchanged?

For AI projects, clarify data privacy, access permissions, human escalation, expected usage, and external provider costs before committing to scope.

03 / Quotation worksheet

Complete this internally before sending a formal quote. Recommend one solution rather than presenting a long menu of options.

Client / business

_____

Project and primary goal

_____

Recommended solution

_____

Deliverables and scope

_____
_____
_____

Exclusions / client responsibilities

_____
_____

Third-party tools and recurring costs

_____

Estimated timeline and milestones

_____

Project fee (USD)

$_____

Payment schedule

_____

Support / maintenance after launch

_____

Quote expiry date

_____

Recommended commercial terms

- For standard projects, consider 50% upfront and 50% before launch; use milestone payments for larger builds.
- Define what counts as a revision and how many rounds are included.
- The timeline starts after deposit, content, access, and required approvals are received.
- Changes outside the agreed scope may require a revised quote.
- Do not guarantee lead volume, sales, or business results; performance depends on traffic, offer, audience, and follow-up.
